

Monday 4th November 2019

L.O we are learning to use conjunctions,

Are you not able to walk
with your stone trousers on?
Is it hard to collect fire wood?
Are your trousers not silky and soft?
Are you bored of not moving
because of your trousers? Are you
not enjoying wearing solid trousers
when you wear them do you
want to run but then you are not
happy because they are extra
heavy. Do you think stone is itchy
and mammoth skin is comfortable?
You could hurt your knee if you
do im-nasticks and that would
be your stone age trousers
fault. While you are running
someone could knock you over
and then you fall on your stone
trousers and that will be really
sad.

You will need these

trousers because they
are soft silky and warm. We
have made them warm and extra
comfy also if you want you
can wear the comfortable trousers
before bed time. After you go
swimming you can make yourself
a animal skin towel. They
are extremely soft. When you
are playing and you fall over
they will not hurt you. You
should buy them because they
are super silky. They are super
special speed to you & until you
will enjoy them so much you
will be doing happy crying * * *

extremely

knock
