6.0. We are learning to plan and write a narrative by creating settings, characters and a plot.

It was an ordinary day at the hall for polo day in my pitch black suit in the middle of summer. Important Jacob the barister went to the hall and noted for Boris Zenson. The hall was full of pictures and it was emerald green and the dinner ladies were changing the pans. ~~when I~~

when Jacob was about to leave the hall Jacob heard a noise and said what was that. When the noise struck everyone screamed but Jacob didn't. The sky was dark so something must be happening.

Because of the noise I went to have a look suddenly I fell into a hole then I fell asleep when I woke up I found out that I was in the stone age but I suddenly saw a person but it wasn't an ordinary person it was a some man I couldn't believe what I saw. I couldn't understand what he was saying. It looked like a leopard because it was wearing leopard skin around him. The stone age person told me to kill animals and to cook them so I like the stone age I really do.
