

Thursday 21st November 2019

We are learning to use devices to build cohesion within and across sentences and paragraphs.

I believe that we need to use the Amazon ^{rainforest} to farm. We need to use it because if we stop farming we will lose our jobs. If we lose our jobs ^{ourselves} and our families, we will be on the streets without a job.

We need to keep farms because we harvest all of your food. If farms stop ^{move} you will all go hungry. If we had to move the farms away from the rainforest this would come at a cost to the local towns and ^{villages} villages. firstly you would have to further to travel for produce. furthermore there are people out there that needs food.

For example we will lose all of our machinery, we've worked on this farm for years and all of our hard work can't just be thrown away. We have worked so hard for all of our machinery it's cost hundreds of pounds.

If our job has to go it can't. If we don't have a job we won't be able to afford food for our family. We won't be able to pay our rent every month. Think of our family. All we're doing is using some land.

As I mentioned early we will be jobless, we will all go hungry, we will lose all of our machinery and hard work, and we will have no money for our families. So I believe we should use the Amazon for our own human purposes.
