

Monday 9th December 2019

We are learning to link ideas across paragraphs, using adverbials of time.

On After days of waiting patiently, the day finally arrived on Tuesday 3rd December 2019, year 5D ^(and 5N) ~~went to~~ went to Science ~~mus~~ museum in London. The journey was long and tedious but ~~twi~~ I sat next to my friend Paige and we talked and played entertaining games all the way. The atmosphere was electric since everybody was so excited for the trip. When we arrived, we were all ready to learn about forces.

First, we exhaustedly ran up four stair cases to get to the top. That's ~~was~~ ^{where} the flight area is. We ~~are~~ immediately started looking around and exploring the room and ~~#~~ filled in an activities booklet. After some time, we ventured down the stairs again to go to the information age. ~~To~~ we started listening into some headphones to begin with ~~se~~ that people thought were "Creepy" and then we listened to the telephones. Until then, everyone was scared.

At last, we had lunch. ~~Everyone~~ Everyone was pleased to finally be eating. After a while, we ~~eventually~~ finished lunch and headed over to our feet the force show. It was amazing 3!
At that point, ~~we~~ our brains would probably have exploded! Next, we were introduced to our new celebrity - Phil the frog, the main actor in Harry Frogger, James Pond and Frogzen. He helped us with lots of science experiments.

~~Unfortun~~ In the end, we had to go home.
So it was the same tedious journey once again.
