I have been looking to use Latent
Locality in our writing

Dear Diary

When I woke up in Iceland it felt like ~~the~~ a cloud. I woke up outside and I saw all of the beautiful waterfalls. I saw some amazing ~~geysers~~ geysers. When I went outside and I wanted to go in the sea but it was full of pokey ice cubes. I saw a pier so I could see in the sea. Sidney a chubby seal jumped up and I saw it was a big ice cube. I ran to the waterfalls and they were crashing down and I wanted to jump into the water. If I did it would really heat my body if I fell in. At the waterfalls I saw a big ice berg and I touched it. I ~~was~~ my hand would get stuck to it. A star that I went home when it was dark white. I looked out the window again and I saw two things. The first was a pokey and the second thing was a geyser explode. I had to go back out to see it again. So much I was outside I ran as fast as I could because it was really going to explode. I mean I got there in the nick of time.

sp When I saw it it was very beautiful. Prove my sublim part of the day so get was riding the pony if you wanted to match it go fast you couldn't hit it in the back work. What I wanted to do was in the sea was on ice of around the sea. When I was walking and I saw a big mountain and I looked very close and I saw a archaeologist. He had a big bone in his hand. I walked side him and I saw a big mountain and it was very dark. A year I what time when I was home I had to go to sleep because I was too tired.

From L & V I

Can you use a different adjective to beautiful to describe the geyser?
very wonderful
